

InstaShow® VS20

Wireless Video Conferencing System

Smooth Collaboration in Hybrid Meetings

VS20 is the ultimate wireless presentation and video conferencing device with 4K video output, embedded microphone, and intuitive features such as touchback and extended screen, perfect for high-quality and collaborative hybrid meetings.

Hassle-free IT Management

Ease the burden of IT management with VS20, featuring a user-friendly web interface and secure data management through WPA2 encryption, leaving you free from any IT headaches.

The BenQ VS20 system offers seamless **plug-and-play screen sharing** during meetings, with the option to install advanced BenQ software and make use of features that facilitate hybrid video conferences.

The VS20 video conferencing solution boasts a unique **built-in microphone** button and the ability to configure an **external camera** for flexible video source options.

The **switchable dual interface** allows for easy switching between USB Type-C or Type-A cables for the button.

Versatile and flexible, the VS20 is ideal for meetings of any size, from small huddle rooms to large boardrooms, thanks to its extensive **20-metre transmission distance**.

VS20 fully supports **BYOM** with Windows devices, allowing users to bring their own device and preferred conferencing solution to host a video conference.

BENQ
