MASTERCASE EG200

MCM-EG200-KNNA55-S00/MCM-EG200-KNNA55-UK

## POWER UP YOUR PORTABLE

### FEATURES

**Greatly Boost GPU Performance** - Add the power of a desktop graphics card to your laptop. The EG200 interfaces to a laptop with a high-bandwidth Thunderbolt™ 3 connection to greatly increase gaming performance or compute performance with a dedicated graphics card.

**Thunderbolt™ 3 Connection** - The Thunderbolt™ 3 connection supports a blistering speed of up to 40Gbit/s and 60W laptop charging via the USB-C. The EG200 is outfitted with the latest JHL7440 controller to ensure maximum performance and compatibility.

**Built-In Laptop Stand** - Neatly dock your laptop into the space-saving built-in vertical laptop stand and work from directly from an external monitor like a desktop.

**Dedicated IO Ports** - The dedicated USB connection separates the USB hub functionality from the Thunderbolt™ 3 connection to allow the graphics card or other PCI-e device use of the maximum Thunderbolt™ 3 bandwidth.

**Hard Drive Dock** - Expand the limited storage on your laptop with an added 3.5" or 2.5" HDD/SSD drive for your game library or project files

**Space-Saving Compactness** - At just 9.7L the EG200 is one of the smallest e-GPUs on the market supporting full size cards while saving valuable desktop space.

**High Component Compatibility** - With an included 550Watt PSU, the EG200 can support even the most power-hungry graphics cards on the market. Cards with dimensions up to 325 x 54 x 141mm are supported. Also compatible with any other PCI-e add-in card such as gigabit ethernet, NVME expansion cards, etc.

# FEATURES

### High-Performance Thermal Design

Large meshed intake allows air to be sucked in directly from the side and expelled at the top. The included fan adapts automatically to the internal temperature, spinning down when not needed. Optional user addable fan position.

### Dedicated Rear IO

The dedicated USB connection separates the USB hub functionality from the Thunderbolt™ 3 connection to allow the graphics card or other PCI-e device use of the maximum Thunderbolt™ 3 bandwidth

### Modular Tool-Free Construction

The steel panels are individually removable to allow all-angle access into the EG200 without the use of tools.

### Hard Drive Dock

The front door hides a hot-swap drive bay that can house a 2.5" or 3.5" for storage expandability.

### Vertical Laptop Stand

Dock your laptop vertically on the EG200 with the included stand to save valuable desktop space. The stand is optionally lockable with a thumbscrew

### Plug and Play

Boost the performance of your laptop or run it with an external monitor for the ultimate desktop replacement. Just plug and play\*

*\*Advisable to update to the latest Thunderbolt™ 3 and graphics and drivers.*
