

# Rival 700

<b>Title</b>	Rival 700
<b>Description</b>	N/A
<b>Features</b>	Vivid OLED Display -Gamesense: stats, game events, kill counter, accuracy -Personalize: Gamer name, gifs, nametags -Configure your settings directly on the mouse Tactile Alerts -Easily programmable Tactile Alerts through SteelSeries Engine 3 notify you of in-game and out-of-game events. -Complete Customization - No two alerts are the same! Not only can you determine what events trigger tactile alerts, but you also have complete customization over how each one feels. -Perfect Tracking - By directing the motor to only move up and down, opposed to left and right, Tactile Alerts will never impact your mouse's tracking. Make it Yours -Find the best fit for any battlestation with swappable cables at different lengths -Swap between the Optical 3360 or the Laser 9800 so you always have the right sensor for the right job -Modular top covers to always have the right look and feel Elite Performance -Optical 3360 best performing gaming sensor -Zero Hardware Acceleration -16,000 CPI, 300 IPS, 50G acceleration -Hyper-responsive L + R clicks -30m click durability Design -Amazing Ergonomic design with a universal grip -7 button layout -Reinforced Left and Right click durability - Not only does this make the mouse more durable, but it also helps to evenly distribute the force of each click making for a more consistent click feeling regardless of where you press down. -Double shot injection side grips - Clad with an entirely new blend of double injected rubber that gives gamers the ultimate grip over their game. SSE3 Customization -Prism RGB 16.8 million color illumination -Performance customization options - cpi, polling, lod, macros and more. -On-board profile storage - remember your setting where ever you go
